

COMBO PACK

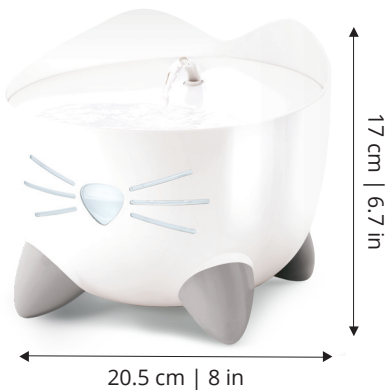

Pixi™

Cat Drinking Fountain & Elevated feeding dish

Catit PIXI Fountain Combo Pack

Care for your feline friend in true style, with a matching PIXI drinking fountain and feeding dish. The Combo set includes everything you need for a carefree mealtime routine, with 2 stainless steel feeding dishes and 3 fountain filters for easy maintenance.

DISHWASHER SAFE STEEL

Dish capacity
200ml |
6.83 fl oz

Ergonomic & cute

This adorable Catit PIXI™ feeding dish is elevated by its 4 little paws to an ergonomic height. The stainless steel dish is comfortably shallow not to irritate your cat's whiskers while they're eating.

Available in 4 joyful colours (-combo packs)

Unique arching water flow for ergonomic drinking

Multiple drinking options for maximum comfort

The Catit PIXI® Fountain offers 3 different drinking options to appeal to picky drinkers: gently flowing pool, arching jet (with spout) and bubbling top with stream.

Super silent, perfect for sleeping beauties

Since the fountain pump hangs suspended in water, almost all motor vibrations are absorbed, making the fountain ultra quiet.

Low water level alert with auto-shutdown

The pump is equipped with a sensor that triggers a visual alert when the fountain needs to be refilled. When the water level gets too low, the pump will shut down automatically to prevent potential damage. Once the reservoir has been topped up, the pump will start running again.

Triple action filtration

The Catit PIXI® Fountain includes a filter that purifies your cat's drinking water in three ways.

Use certified Catit PIXI® Fountain Filters only.

Replace the filter every 30 days for optimal results.

The fountain's nose will start blinking blue when it's time to change the filter.
