

D&D HOME

1

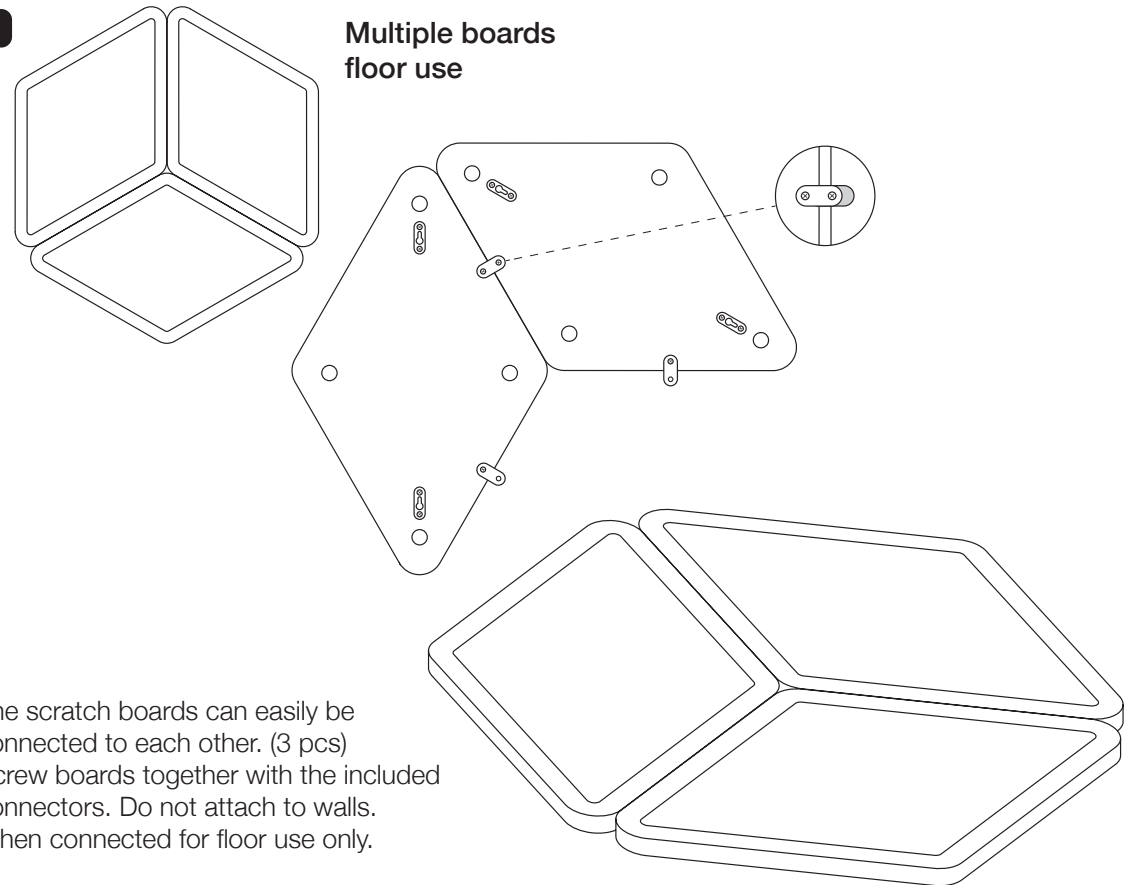

Single board
wall mounting

Determine the desired height. We advise the middle of the board around 60cm above the floor, so the cat can stretch while scratching. Drill 2 holes of \varnothing 6 mm in a straight line below each other. Keep a 312 mm distance between them. Plugs and screws included.

2

Multiple boards
floor use

The scratch boards can easily be connected to each other. (3 pcs) Screw boards together with the included connectors. Do not attach to walls. When connected for floor use only.
