

Discover how Refresh neutralizes unpleasant odours!

# DUVOPLUS REFRESH

NATURAL ODOUR REMOVER

Neutralizes odours, no masking.

Safe for humans, animals & environment.

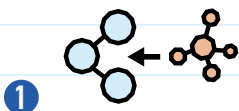

Pleasant, subtle, without fragrances.

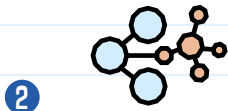

# DUVOPLUS REFRESH

NATURAL ODOUR REMOVER

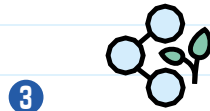

Duvo Plus Refresh is supported by technical know-how and science and features an effective three-step process:

Duvo Plus Refresh comes into contact with the air. **Its molecules attract the bad odours.**

**The molecules of Refresh form a bond with the bad odors** and break them down.

**The bad odours disappear,** leaving only a natural fresh mountain air scent.

Duvo Plus Refresh contains no solvents and is therefore biodegradable.

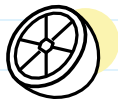

Duvo Plus Refresh is produced in the EU and contains mountain water from Austria, combined with essential oils from natural ingredients:

Anise

Pine Needles

Lime

Cedarwood

Clove

Refresh spray

Duvo Plus Refresh is **available as a gel for continuous use and as a spray for “instant” odour removal.**

The product is safe for humans and animals and leaves no residue, just pleasant fresh air.
